**Games For Competitors Hosts First Tri-Cross Tournament at the Georgia Mathematics Conference**  
*On October 14, Georgia teachers will compete against each other in a true test of strategy*

ATLANTA – October 12, 2009 – Atlanta area math teachers attending the 2009 Georgia Mathematics Conference this week will have the opportunity to compete in the first ever Tri-Cross tournament, hosted by the game’s creator, Games For Competitors. Taking place on Thursday, October 15 at the Rock Eagle 4-H Center in Eatonton, Georgia, the tournament, designed to give teachers a better understanding of the game’s classroom potential, will place math teachers against each other in a true test of strategy.

Tri-Cross, already a student favorite throughout Atlanta area classrooms, challenges players to think strategically, anticipate actions and problem solve in a way unique to traditional board games. The very teachers who have taught this game to their students will be challenged to outwit their opponent through initial piece placement, apt memory skills and both offensive and defensive strategies. The tournament will also give educators the unique opportunity to meet the creators of the game, share strategies with one another and discuss best teaching techniques.

“We’re always rediscovering Tri-Cross’ potential and this tournament will allow us to bring a whole new level to the game’s offering,” said Brian Howell, director of product development at Games For Competitors. “By introducing tournament play to Tri-Cross, competitors, whether students or seasoned strategists, will be afforded the opportunity to further develop their strategic skills, while bringing a greater awareness to the game.”

For more information or to purchase Tri-Cross, visit: [www.gamesforcompetitors.com](http://www.gamesforcompetitors.com).

**About Tri-Cross**

Tri-Cross, a multi-player, abstract thinking game challenges players to think strategically, anticipate moves and problem solve in a unique way. Being hailed by educators as the “new chess,” Tri-Cross has six optional variations of play, varying in degrees of difficulty, making it an instant favorite among strategists, parents and teachers. Since making its debut at the 2008 New York Toy Fair, Tri-Cross has gained nationwide attention and won several awards including, Creative Child Magazine’s 2008 Game of the Year, Dr. Toy’s 100 Best Products of 2009 and receiving the National Parent Center’s Seal of Approval.
